INTER-LOCK®

The INTER-LOCK® Fastener system offers a choice of badge fasteners to suit your changing day to day needs. Do the clothes worn today require a pin fastener rather than a pocket fastener? Just unclip the pocket fastener and clip on a pin fastener. There is no need to buy multiple badges. You can offer this choice and flexibility to all employees without paying for additional badges and engraving costs.

Each badge requires a home base which can accept your choice of interchangeable fasteners.

Add these prices to our badge prices (not sold separately).
